Why iLivestock?

With iLivestock, farmers spend less time on paperwork and get more from their livestock records. From tracking growth to managing treatments and breeding, having the right information to hand helps them spot progress, plan ahead and make confident decisions about their animals and their business.

Our goal

Help farmers move their business forward

Industry recognition

Our award-winning technology brings innovation to sheep and cattle farming, helping farmers capture useable data and manage livestock with confidence.

The iLivestock platform

iLivestock brings software, EID reading, weighing and support together to simplify livestock management. Identify animals, capture weights and keep connected records, turning everyday tasks into useful insights. With our support, build a system that works for your farm and grows with your business.

An all-in-one system for sheep and cattle farmers

Read, weigh and manage your sheep and cattle with one connected system. iLivestock software and the eTagReader identify animals and keep treatment and breeding records close to hand. Add our weigh head and load bars to record individual weights, track growth and performance, and spot changes that may need attention.

Ditch your notebooks and put your sheep and cattle records in your pocket.

Spend less time on paperwork, make smarter decisions and keep your livestock business productive and profitable with iLivestock.

Download on the App Store

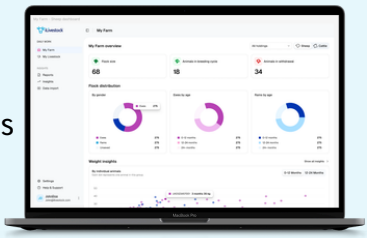

GET IT ON Google Play

Your sheep and cattle records, all in one place

- Individual animal records
- EID identification
- Track weights and growth
- Keep track of treatments
- Breeding & parentage
- Management groups
- Livestock movements
- Works without mobile signal

Gain insights from your data

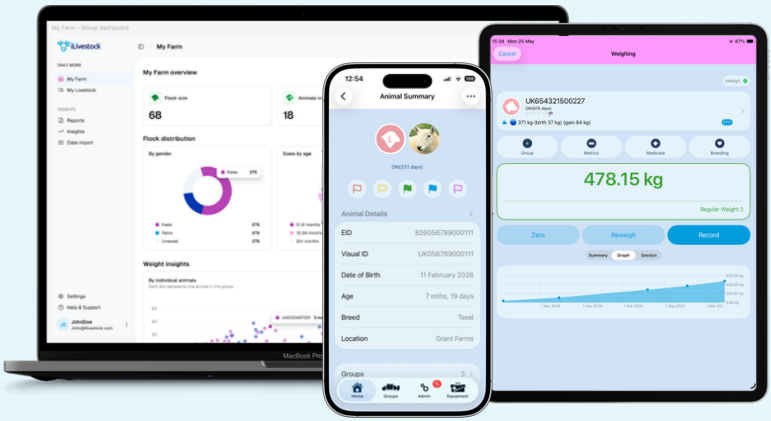

iLivestock dashboard
Export reports and monitor performance

Pricing

- **12 months included with any iLivestock hardware purchase.**

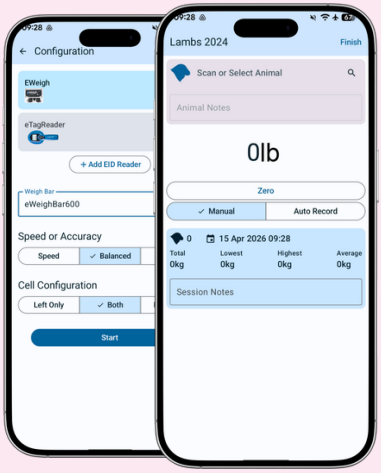

Record on your phone, tablet or computer

iLivestock eWeigh

For farmers who want simple weight recording without the full livestock management platform.

Free livestock weighing

Straightforward weighing.
Connect to your eWeigh and eTagReader to identify tag numbers and store weight data against animal profiles.

- View live weights
- Track average daily gain
- Add notes to records
- Export data for sharing
- No sign-up required

Download on the App Store | GET IT ON Google Play

eTagReader | EID reader for sheep and cattle

Spend less time reading tag numbers and more time getting the job done.

The **eTagReader** is a compact EID reader that helps farmers identify livestock automatically. Connect it to the iLivestock app to bring up animal records, organise groups, or scan tags into the reader to upload later.

Benefits

- **Get more from your EID tags** instead of reading and typing numbers manually, saving time and reducing entry errors.
- **Record information against the right animal** when connected to the iLivestock app
- **Scan animals into management groups** for weighing, treatments, breeding or other farm tasks.
- **Read tags from up to 38 cm away**, making scanning easier during handling or from the crush.
- **Battery to scan continuously for up to six hours,** then recharge via USB-C.
- **Compact design** fits in your jacket pocket or glovebox.
- **Carry case and charger included.**

Tag them, scan them, manage them

Get 12-months of iLivestock with your eTagReader

Specifications

Suitable livestock ---------- Sheep and cattle

Tag compatibility ---------- HDX and FDX-B livestock EID tags

Reading range ---------- Up to 14"

Connectivity ---------- Bluetooth

Display ---------- 2.4-inch colour LCD

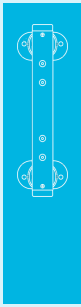

Controls ---------- 5-way keypad and dedicated read button

Internal storage ---------- Up to 175,000 animal records

Protection rating ---------- IP65

Dimensions ---------- 11" long × 4.7" wide

Warranty ---------- Two years

The Bluetooth weigh head that turns your phone or tablet into a livestock weighing display.

Connects to compatible load bars and sends sheep and cattle weights to the iLivestock app. Track growth, make informed management decisions and record weights as you work from the field or yard.

Benefits

- **Reduce paperwork and manual entry** by capturing weights in the iLivestock app as you weigh.
- **Build weight histories to monitor growth** and support feeding, breeding and sale decisions.
- **Make use of your existing setup** by connecting to compatible load bars or a weigh cell.
- **Works without an internet connection** so you can keep weighing and recording wherever you're working.
- **24 hours of battery** supports long weighing sessions.
- **Simple to use single on/off button** makes setup and operation straightforward.
- **Velcro mounting straps and charger included.**

Send weights straight from the crush to your app

Get 12-months of iLivestock with your eWeigh

Specifications

Suitable livestock ---------- Sheep and cattle

Connectivity ---------- Bluetooth

Software integration ---------- iLivestock & iLivestock eWeigh

Weighing equipment --- Compatible load bars or weigh cells

Animal identification ---------- Via app: visual ID, or EID

Battery ---------- Rechargeable lithium-ion battery

Protection rating ---------- IP67

Operating temperature ---------- –20°C to +40°C

Dimensions ---------- 4.7" wide × 2.5" deep × 5.1" tall

Warranty ---------- Two years

eWeighDS | Digital weigh head with weights on screen

Our digital weigh head with a built-in display, so you can see livestock weights directly at the crush.

Use it for standalone weighing, or connect to the **iLivestock** app to save individual weights and track growth over time. It helps you weigh efficiently and make informed management decisions.

Benefits

- **See weights where you work,** with a built-in display readable from the crate or crush.
- **Weigh with or without the app.** Connect to iLivestock to save individual animal weights.
- **Track growth and performance** to support feeding, breeding and sale decisions.
- **Pair with iLivestock load bars or other major brands,** fitting underneath cattle crushes, or sheep crates.
- **Record as you weigh without paperwork,** save weights automatically in the app as you weigh.
- **24+ hour battery life** supports long sessions and weighing away from a power supply.
- **Mounting bracket and battery charger included.**

Track their weights from the crate or crushside

Get 12-months of iLivestock with your eWeighDS

Specifications

Suitable livestock ---------- Sheep and cattle

Connectivity ---------- Bluetooth

Software integration ---------- iLivestock & iLivestock eWeigh

Weighing equipment --- Compatible load bars or weigh cells

Animal identification ---------- Via app: visual ID, or EID

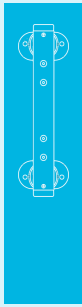

Battery ---------- Rechargeable lithium-ion battery

Protection rating ---------- IP66

Operating temperature ---------- –20°C to +70°C

Dimensions ---------- 7.4" wide × 7.2" deep × 9.6" tall

Warranty ---------- Two years

Turn a sheep or calf crate, weighing platform or tray into a practical livestock weighing setup.

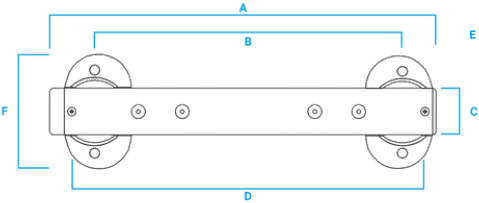

Connect load bars to **eWeigh**, **eWeighDS** or a compatible weigh head to see weights. Connect your weigh head to **iLivestock** to log weights, track growth and support management decisions

Benefits

- **Upgrade your existing setup,** installing under your current crate or platform.
- **Monitor growth and performance,** connecting your weigh head to the iLivestock app.
- **Weigh during routine handling,** gather useful weight data while animals are already in the crate or crush.

eWeighBar600 | Livestock load bar with 4,400 lb capacity

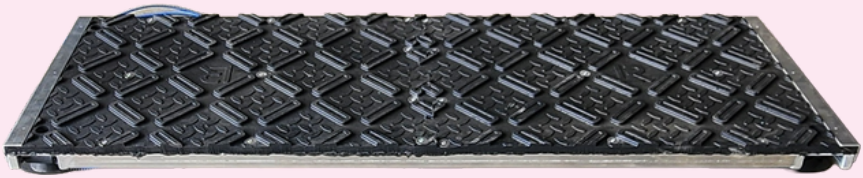

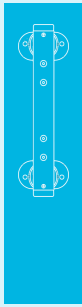

For use with ---------- Sheep/calf crates, platforms and trays
Weighing capacity ---------- 2,000 kg / 4,400 lb
Weight (per load bar) ---------- 17.6 lb
Resolution ---------- 0.2 kg / 0.5 lb
Load cell ---------- Aircraft-grade aluminium double shear beam
Protection rating/coating ---------- Galvanised finish IP66
Cables ---------- 5m PUR/PVC cable with stainless steel spring
Operating temperature ---------- –20°C to +40°C
Warranty ---------- Two years

Get 12-months of iLivestock with your eWeighBar600

AP628 Alley Platform

- For use with **eWeighBar600** load bars.
- Dimensions: 28” Wide, 87” Long, 3” Tall.
- Heavy duty aluminum frame for long life expectancy.
- High traction rubber top keeps cattle steady.
- Compatible with third party load bars.
- Low profile design.

Turn a sheep or calf crate, weighing platform or tray into a practical livestock weighing setup.

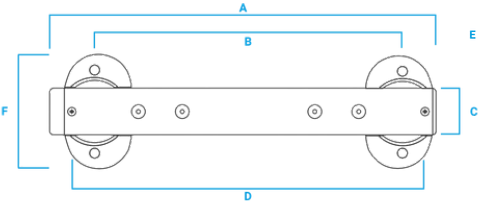

Connect load bars to **eWeigh**, **eWeighDS** or a compatible weigh head to see weights. Connect your weigh head to **iLivestock** to log weights, track growth and support management decisions

Benefits

- **Upgrade your existing setup,** installing under your current crate or platform.
- **Monitor growth and performance,** connecting your weigh head to the iLivestock app.
- **Weigh during routine handling,** gather useful weight data while animals are already in the crate or crush.

Dimensions

A 29.9"	B 22"
C 3.15"	D 27.5"
E 3.93"	F 7"

For reliable sheep and calf weighing

Get 12-months of iLivestock with your eWeighBar800

Specifications

For use with ---------- Sheep/calf crates, platforms and trays

Weighing capacity ---------- 3,000 kg / 6,600 lb

Weight (per load bar) ---------- 22 lb

Resolution ---------- 0.2 kg / 0.5 lb

Accuracy ---------- ± 1%F.s. or 2d

Load cell ------ Aircraft-grade aluminium double shear beam

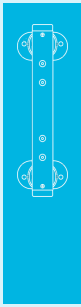

Protection rating/coating ---------- Galvanised finish IP66

Cables --------- 5m PUR/PVC cable with stainless steel spring

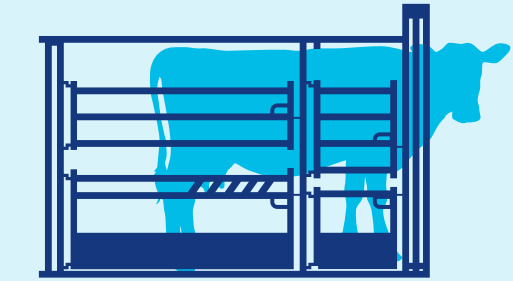

Operating temperature ---------- –20°C to +40°C

Warranty ---------- Two years

eWeighBarHD | Livestock load bar with 11,000lb capacity

The eWeighBarHD heavy-duty load bars turn your cattle crush into a practical weighing system.

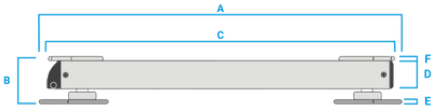

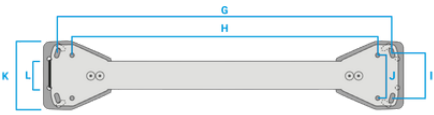

Connect load bars to **eWeigh**, **eWeighDS** or a compatible weigh head to see weights. Connect your weigh head to **iLivestock** to log weights, track growth and support management decisions

Benefits

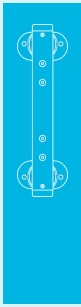

- **Upgrade your existing setup,** installing under your current crate or platform.
- **Monitor growth and performance,** connecting your weigh head to the iLivestock app.
- **Weigh during routine handling,** gather useful weight data while animals are already in the crate or crush.

Dimensions

A 43.3"	B 4.33"	C 38.9"	D 1.9"	E 0.39"	F 0.19"
G 38.2"	H 34.25"	I 6.3"	J 4.72"	K 8.26"	L 3.14"

Heavy-duty load bars for cattle weighing

Get 12-months of iLivestock with your eWeighBarHD

Specifications

For use with ---------- Cattle platforms or heavy-duty crushes

Weighing capacity ---------- 5,000 kg / 11,000 lb

Weight (per load bar) ---------- 44 lb

Resolution ---------- 0.2 kg / 0.5 lb

Accuracy ---------- ± 1%F.s. or 2d

Load cell ------ Aircraft-grade aluminium double shear beam

Protection rating/coating ---------- Galvanised finish IP66

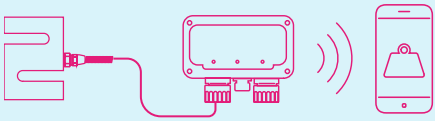

Cables --------- 5m PUR/PVC cable with stainless steel spring

Operating temperature ---------- –20°C to +40°C

Warranty ---------- Two years

Convert your spring dial weigh crate to a digital weighing system

Replace the spring or dial mechanism and connect to an **eWeigh** or **eWeighDS** for digital weight readings. Save individual animal weights and track growth without replacing your whole crate.

Benefits

- **Upgrade your existing sheep crate** to digital weighing, without the expense of replacing the whole crate.
- **Make weights easier to read** through your connected weigh head or app, rather than reading an analogue dial.
- **Weigh and record together** in the iLivestock app as you work, reducing handwritten notes and manual data entry.
- **Track growth over time** to monitor progress and support animal management decisions.
- **Make handling time count** by gathering useful performance data while sheep are already in the crate.

New life for your old kit, convert to digital

Get 12-months of iLivestock with your eWeighCell

Specifications

For use with ---------- Spring dial/suspension sheep crate

Weighing capacity ---------- 300 kg / 660 lb

Repeatability ---------- ±0.02% F.S

Zero balance ---------- ±1% F.S

Safe overload ---------- 150% F.S

Material ---------- Alloy steel

Protection rating/coating ---------- IP67

Cable length ---------- 3m

Operating temperature ---------- –30°C to +70°C

Warranty ---------- Two years

Andrew Powers, Tyrrells Firth Farm

"I instantly liked how the **eWeigh** worked. The fact that weight data goes straight into the **iLivestock app** is a huge practical benefit."

Zoe Norton, G.A. Livestock

"I didn't use any kind of tech before, just paper records. The best thing about **iLivestock** is there isn't one right way to use it. It's whatever works best for you!"

George Sturla, Beeches Farm

"We use the **eWeigh** system to weigh and monitor lambs. Tracking their weight gain provides insight into when the lambs will be 'ready'. This insight is essential to us."

Steve Penberthy, Terwithick Farm

"I was looking for something to store my farm data on mobile,and be able to see it in the field. **iLivestock** is a simple app to manage my sheep and helps me organise my farm admin. Super handy!"

Support

Wrap around care

We help you get your equipment set up and working on your farm. Our team could visit to install and configure your hardware, making sure everything is calibrated, connected and ready to use. If issues arise, we'll work directly with you to resolve them wherever possible, so you can feel confident your system is supported.

Support that works as hard as you do

We'll get in touch when you get started to help you find your way around the app. Whenever you need a hand, help is easy to reach:

- Phone support
- Email support
- In-app messenger
- Online help centre

Warranty

Manufacturer warranty

All iLivestock hardware comes with a manufacturer warranty for added peace of mind. Full details are included in your hardware purchase agreement. If something goes wrong, our team will work with you to minimise disruption and keep your farming operations moving.
